OF HUMANITY

At a later hour, Mr. and Mrs. Ward departed for Fulton in an auto, where they boarded a train without making their destination known. After a short wedding trip, they will be at home at Evanston, Ill., a suburb of Chicago.

The bride is one of Hickman's most charming and popular girls; refined, attractive and possesses a large circle of friends. She was formerly a teacher at Hickman College, where she did most excellent work, but later accepted a similar position at Louisville. It was while in the latter city she met Mr. Ward, and a romance of two and a half years followed, with its happy culmination Thursday evening. She is a fine girl and a member of one of the county's most prominent families. For some years past the bride has made her home with her brother-in-law, W. S. Ellison.

Mr. Ward is city salesman for a Chicago firm and a hustling, prosperous young business man. He is reported to be a gentleman of the first water and worthy of the lady whose hand and heart he has won.

Mr. and Mrs. Ward were recipients of many elegant presents.

The kindly wishes and congratulations of their many friends go with the couple in their new home.

There is some talk of W. T. Avery, of Clinton, entering the race for Representative.

TAKE TWO EXTRA BUCKS WHEN YOU GO TO LAKE.

The Reelfoot Lake "anti-alien" fishing bill received the final stamp of approval of the Tennessee legislature. Hereafter if Hickmanites desire to cast a line in the lake, it will be necessary to first donate two simoleons to the State's duly authorized agent at Union City for a slip of paper which warrants and conveys to you the right to angle—whether they are biting or not. Failure to comply with this little ceremony will cost you from \$25 to \$100 if you're caught in the act. Our friend P. C. Ward says he has made application for some kind of deputyship, whereby he may issue the necessary license at Walnut Log and thus save the fisherman a trip to the capitol of Obion County. Fishermen, who fish for profit, will pay heavy sums for fishing privileges, ranging from \$1 to \$1,000 per season. As part of the Lake is in Fulton County, Kentucky, we will still fish in the troubled waters and make faces at any warden who approaches the state line. In fact, we have some doubt about the line, as it looks like Tennessee set her fence away over on us.

S. M. Naifeh is putting in steam heat and making other repairs to his home and premises.

Mrs. Charlie Perry has returned from a three week's visit at Armored, Ark.

ing me, it shall be my fort to see that you shall never regret your action. If I shall not be successful, I will continue to serve in the ranks and always give my party and its nominees the same faithful support that I have rendered in the past.

"I am a temperance man in belief and practice, and I think that the people of Kentucky should be given a vote on the question of amending the constitution as to whether or not intoxicating liquors shall be manufactured and sold in the State.

"I have in mind several measures that I think should be put into effect, but I shall not weary you by detailing them at length in this announcement. I shall take pleasure in discussing those matters later in person and on the stump throughout the district.

"I respectfully ask your support and assure you that your vote and influence will be most gratefully appreciated."

MOSCOW WEDDING.

A pretty Easter wedding took place at the home of the bride's parents, Mr. and Mrs. Perry Deween, of near Moscow, April 8, when Miss Dennis Deween became the wife of Robert Sewell Wright.

An inventive genius has patented an electric umbrella. It is used in the ordinary way, but if the night is dark a button in the handle of the umbrella is touched and the way will immediately be lighted with tiny incandescent lights. There are lights at the butt, at the top and at the ends.

A young Texan who took part in the assault and capture of Vimy Ridge Monday, carried an American flag attached to his bayonet. It was the first time the Stars and Stripes had been carried into battle in the world war. The soldier was wounded.

Rev. Thurston B. Price will begin a big revival at Fulton Sunday, April 22.

ARE THEY WEAK OR PAINFUL?

Do your lungs ever bleed?
Do you have night sweats?
Have you pains in chest and sides?
Do you spit yellow and black matter?
Are you continually hacking and coughing?
Do you have pains under your shoulder blades?
These are the symptoms of

Many sufferers who said they had lost all hope and had been given up by physicians, declare they have been completely relieved by Lung Germine. If your cough and other symptoms are due to weak lungs, serious developments may follow neglect. NOW is the time to begin on LUNG GERMININE and build up and strengthen your lungs.

Lung Germine has relieved incipient Lung Disease, according to statements of sufferers themselves, as well as statements from their doctors, and the patients remain strong and in splendid health today.

MISS VIRGINIA LUTEN ASKS RE-ELECTION.

The Courier is pleased to place before its readers this week the name of Miss Virginia Luten as a candidate for re-election to the office of County School Superintendent, of Fulton County, subject to the action of the Democratic party.

Miss Luten needs no introduction. Everyone at all familiar with educational matters in this county are fully aware of the splendid administration of school affairs since Miss Luten has been superintendent; know that the work has been of unusual merit and the results obtained remarkable. The instances of marked improvement are too many and varied to recite in this mention—including, as they do, many important measures in the way of consolidations, school libraries, modern school buildings, evenly balanced work among teachers and pupils, a general awakening and interest on the part of patrons in school work, county school fairs, etc., etc. In complying with new laws and abolishing antiquated methods in certain instances our superintendent had to stand her ground against superior number, but some of the opposition has frankly admitted to us that they are glad she contended for such measures. They are now convinced she was right; in fact, know it. But, Miss Luten is not a "reformer," she is merely doing her level best to help our schools and to follow the law in the discharge of her duty.

All in all, we do not hesitate to say that we believe Miss Luten has accomplished more in the same length of time than any superintendent we've ever had. There has been no shirking on her part. She has devoted her whole time to school work, with results that are gratifying to both herself and patrons. In asking for re-election, she does so, certainly, with a full knowledge that she has done her whole duty; and it seems to us, even from a cold, business point of view, that the should be re-elected by the whole voting strength of Fulton County Democracy. The county hasn't a more faithful, loyal, efficient, painstaking official.

The Chinese Oil Varnish Made in Natural (Clear) and Colors

Cheapest by the year—because it outwears all other varnishes on floors, stairways, doors, wainscoting, casings, furniture, etc.

Cheapest by the yard—because a gallon covers one-third more surface than any other varnish.

Cheapest by the day—because it takes a third less time on the part of workmen to brush it upon a given surface.

The reason is, it is made of the best material that makes varnish, is not adulterated with either rosin or benzene, and possesses, by a special process of treating Chinese Oil, a toughness, elasticity and water resisting quality impossible to obtain from any other oil.

You can hammer it, scratch it or boil it; it will neither turn white nor lose its gloss.

Best for new buildings; best for old ones.

For furniture or any wood or metal surface.

The Same Standard

of quality as heretofore is maintained at this store. Prevailing conditions have forced a change in prices but not in quality.

We believe our customers want the same grades of merchandise that we have always aimed to give them, and they know that unusual conditions, scarcity of materials and the high cost of labor have made it impossible for the manufacturer to produce goods at former figures, and that we, naturally, must "pay the price" and in turn must ask a higher price on practically all our lines.

We will continue to carry well known brands, stamped with the maker's name (proof of a "quality standard") which is your assurance of satisfaction and the same high grade service as heretofore.

Our reputation will always be a guarantee of reliable goods and honest values.

Kentucky will be called upon to furnish to the federal army under the call for 1,000,000 men approximately 20,000; from this number will be deducted the number now in the Kentucky National Guard. This number is on the basis of 1,800 for each congressional district of the State.

Tells How To Loosen A Tender Corn or Callus so it Lifts out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lock-jaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you. Adv.

When we see boys on the streets and public places we often wonder if they know the business men are watching them. In every bank, store and office there will soon be a place for a boy to fill. Those who have the management of affairs of business will select one of the boys; they will not select him for ability to swear, smoke cigarettes or tap a beer keg.

PRISON SHIP PASSES.

"Ships that Pass in the Night" also includes the famous old English prison ship—the oldest boat afloat—which passed Hickman at an early hour this morning enroute to St. Louis. Many of our citizens were disappointed in not getting, at least, a glimpse of this old relic of barbarism and torture. She passed at five o'clock in tow of the Str. Barrett and will be on exhibition at St. Louis until the middle of the summer.

Fulton County Court Clerk

are the people asking for an office. Being a thoroughbred democrat first, last and all the time, and having been a loyal worker for the party's best interests, he feels that he is justly due your consideration in his behalf in the coming 1917 primary. He fully realizes the responsibility of the office for which he is seeking and is capable in every way of performing the duties attached to said office with honor and credit to himself and supporters. His reputation is without a blemish and should he be elected County Court Clerk will make a faithful and honest official. He is the first out for the office and due your consideration."

COUNTY FARM AGENT NOW ON THE JOB.

The Fulton County Development Association (sponsor for the farm agent proposition) met here yesterday afternoon, with Pres. Inoch Browder in the chair. On roll call the following committees were present:

No. 1—Enoch Browder and R. F. Wade.

No. 2—J. C. Lawson and Jno. Wade.

No. 3—W. M. Shaw, W. A. Johnston and J. P. Maddox.

No. 4—Johnnie Wells, Bob McKimmons and Henry Pollock.

The gentlemen formally employed M. M. Gordon, of Todd County, for one year as farm agent, with a salary of \$1600. Mr. Gordon was present and announced "ready for business" as soon as employed. On motion of Mr. W. A. Johnston, the committee voted to locate Mr. Gordon's office at Fulton, where a live commercial club tenders him free office rooms and stenographer's services.

District organization meetings will be held as follows:

Sylvan Shade, Friday night, April 20th.

Palestine church, Saturday night, April 21st.

Sassafras Ridge church, Monday night, April 23rd.

Graves School House, Tuesday night, April 24th.

Cayce, Wednesday night, April 25th.

Lodgston, Thursday night, April 26th.

Fulton, Friday night, April 27th.

Every farmer who is interested in better farming should arrange to attend the meeting in his district. This farm agent service comes to you free of charge, but will be of vast benefit to those who are of the open mind and willing to profit by the experience and advice of others reaching them through the medium of the farm agent. There are problems galore for the farmer to solve—the question of seed, soil, rotation, drainage, breeding fruits, etc., which Mr. Gordon may be able to answer for you. Don't hesitate to ask him.

The dainty little ring bearer, J. T. Dillen, will be charming in his dream of white tulle, Mary Jane style, with pink sash and other accessories.

Too Many Operations

The Right Medicine in Many Cases Does Better than the Surgeon's Knife. Tribute to Lydia E. Pinkham's Vegetable Compound.

Doctor Said Operation or Death—But Medicine Cured.

Des Moines, Iowa.—"My husband says I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound. I suffered from a serious female trouble and the doctors said I could not live one year without an operation. My husband objected to the operation and had me try Lydia E. Pinkham's Vegetable Compound. I soon commenced to get better and am now well and able to do my own housework. I can recommend Lydia E. Pinkham's Vegetable Compound to any woman as a wonderful health restorer."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from female troubles that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, do all kinds of garden work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. M. O. JOHNSTON, Route D, Box 190, Richmond, Ind.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letters, and many others like them, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

These affidavits did not make affidavits for the purpose of granting Choate a new trial, but only details of what which were upheld by the court. Gardner in refusing to grant a new trial.—Mayfield.

USING WHEAT FOR HOG FEED

Information of Much Value Obtained in Experimental Work Carried On at Missouri College.

(By L. A. WEAVER, Missouri Agricultural Experiment Station.)
The Missouri agricultural experiment station has obtained information of value to pork producers, especially in seasons when the corn crop is short, by carrying on experimental work with other crops grown on the farm. By conducting feeding trials with wheat it has been shown that under some conditions wheat may well be used for hog feeding instead of corn. Results obtained show that when corn is worth 70 cents or more a bushel, wheat may be profitably substituted for corn. If the wheat is worth 90 cents or less, likewise if corn is worth 80 cents per bushel, wheat is worth \$1.03 a bushel as hog feed.

It has been further shown that pork may be produced more cheaply by adding a small amount of tankage to a mixture of corn and wheat than by feeding these feeds without such a supplement.

For example, the cost of producing 100 pounds of pork with corn and tankage was 60 cents less than when corn alone was used. This would mean an additional profit to the producer of \$100 or more on each carload of hogs fed.

The results of these tests are reported in full in Bulletin 138 entitled Feeding Wheat to Fattening Hogs, published by the Missouri agricultural experiment station.

WHITEWASH ABOUT THE FARM

Recipe Given by Nebraska College of Agriculture—Great Help in Destroying Insects.

For general use about the farm buildings to assist in destroying insects, the following recipe for whitewash is offered by the Nebraska College of Agriculture: Slake five quarts of lime with hot water to about the consistency of cream. To this add one pint of kerosene or some other coal-tar product, and one quart of kerosene. Dilute with about its volume of water; apply with a brush or a pump. This solution when properly applied accomplishes three things: (1) Kerosene acts as a disinfectant by killing disease germs; (2) the kerosene aids in destroying mites; and (3) the lime whitens the house.

METHOD FOR CLEARING LAND

Combination of Blasting and Stump Pulling is Favored at University of Wisconsin.

As a result of experiments with stump pullers and dynamite working together on the university's demonstration tour, the University of Wisconsin has discovered that the best method of clearing land is a combination of blasting and stump pulling. The stump puller people admitted that time, labor and money could be saved by first loosening the stumps by blasting before pulling them, and the powder men admitted that a similar saving could be effected by having a stump puller complete the job after a comparatively light charge of powder had done its preliminary, preparatory work on the stump.

KEEP WHEEL FROM RATTLING

A new method has been devised to stop a buggy or wagon wheel from rattling. Instead of having the blacksmith remove a tire and shrink it on again to compress loose parts, the new process provides an expander bolt for

the purpose. A section of the fully expanded rim is shown in order to give necessary room for this expansion. With a tire already in place, the bolt is turned, forcing the wooden rim tight against the outer steel hoop. As a result all looseness in the rim is taken up.—Popular Mechanics.

OVERFEEDING ON GREEN FOOD

Proper Cure for Bloat is Incision With Trepan to Permit Accumulated Gas to Escape.

Bloat or bloat is a drumlike swelling of front hip, left side, the result of overfeeding on green food or wet clover. The proper cure is an incision with a cattle trepan, relieving the accumulated gas. If the disease is not properly and promptly attended to your cow will die.

KEEP WATCH ON THE CHICKS

Don't Let Them Crowd in Breed Coop—Few Minutes Time May Save an Entire Breed.

If your chicks are still in the small breed coop, you must watch them when the hens begin to leave, as they are apt to crowd into one coop and lose an entire breed. A few minutes each evening may mean many dollars profit or loss, according to the value of your chicks.

CONTEST INTERESTING AS IT NEARS FINISH.

Below is the standing of the contestants in the automobile contest, as recorded on April 15th. There have been several good gains made, although Miss Lula Evans still retains the lead by a small majority. This month Miss Nettie Hunt gets the 42-piece dinner set. It might be well to state that only nine more weeks of the contest remain—and only one more counting of votes before the prizes are awarded. Remember, there are five prizes besides the new car worth \$675, and these are worth working for. Ask your friends to save their votes for you—which are given by Helm & Ellison and The Courier on subscription.

Use Doan's Kidney Pills. Here's Hickman testimony.

Verify it if you wish:

Mrs. Ada Williams, Brooklyn and Ashland Sts., Hickman, says: "From overworking, my kidneys became affected. They were sluggish in action and the kidney secretions caused me annoyance. My feet, hands, and face were swollen and I had puffy sacs under my eyes. I consulted four different doctors, but their treatment did me no good. I had spent a lot of money on other medicines, but didn't know whether I was being helped or not. Finally I started taking Doan's Kidney Pills and from the first, they helped me, benefiting me so much that I was up and around the house doing my work in three days. This was after I had spent six months in bed, suffering. Doan's Kidney Pills put my kidneys in better condition than they had been in years and I can surely recommend them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Williams had. Foster-Milburn Co., Prop., Buffalo, N. Y. Advt.

Considering the fact there was no extra attraction, there were more automobiles and Fords in Hickman Sunday afternoon than ever before. Streets were literally packed by out-of-town motorists, and, with one or two exceptions, Fulton county roads were in ideal shape—certainly all of them better than the famous Paducah-Memphis highway. By actual count, we met 60 cars while driving from Hickman to Union City; which indicates that the high cost of living has no terrors for the fellow who can put up for gasoline and oil. It is also evident that the popular mode of conveyance is by auto, as a dozen cars are now met for every buggy and horse. Doubtless our farmer friends are now in the majority as car owners.

J. T. Moore and H. F. Singleton, of Paducah, were guests of Hickman Chapter No. 49, Monday evening; the former being an official inspector for this congressional district.

ANNOUNCEMENT.

The attention of the public is called to the fact that Clyde Poulter, of Kansas City, Mo., has been engaged for an entertainment in Hickman. Thursday night, April 26, under the auspices of the Christian church.

Mr. Poulter is the smallest entertainer on the American platform, being only a little over three feet tall, but he uses the talents God has given him to make the world better, brighter and happier. He is a man of high ideals, and while his programs are mostly humorous, back

of all the humor is purpose. He is a student, an actor and an instructor all combined. Through out all his programs, abounding in humor and pathos, so varied as to please alike both old and young, he presents his characters of real men and women without the use of costumes or make-up accessories. Absolutely different from the usual humorous entertainer, he leaves a burning impression. Just to see what "The Little Man" can do is an inspiration to everyone. Admission: children 20c; adults, 35c. ROUGH RIDER

46253

ROUGH RIDER, 46253, was sired by Alfred Hopper, 40122; he by Alfred G., 12452. Dam Lizzie Brookdale, by Cap Cook, 8083; Granddam Lizzie Burr, by Major Burr, 2104, bred by R. L. Goolsby, Greenfield, Tenn.

ROUGH RIDER is a bay, with black markings, is 16 hands high with extra fine body and bone, the best foot you ever saw exceptionally fine hair, extra large hazel eye, and above all the most sensible horse I ever handled, and is an extra driver with speed and style to let.

This fine standard bred horse made last season at \$15.00 and booked a good number of mares, but for the reason that the breeding public are getting careless with their mares and many of them think the colt raising business not so profitable as in the past we have decided to reduce the price to \$10.00 for this year. We will also stand MOHAWK at \$10.00.

BLACK JIM, our young Jack, will make the stand also at \$10.00. He has proven himself a foal getter, and his mules that have come are equal to any we have seen this season.

The above stock will make the season at the same old stand. Care will be taken to prevent accidents, but we will not be responsible should any occur. We guarantee a live colt by all of the above stock, except when mares are traded. The season then becomes due and payable at once.

RECIPE FOR EXCELLENT HASH

Mixture of Ingredients Has Been Called by its Admirers the "Best Ever Made."

First of all, fry an onion, finely chopped, in one ounce of margarine or dripping, till it is a golden brown, then add one ounce of flour, and after stirring well together for five minutes add half a pint of stock, well flavored with vegetables, two or three cloves, salt if necessary, and four tablespoonsful of catchup. Stir for a few minutes over the fire, then flavor further with a teaspoonful or more of brown sauce or meat extract. Let the sauce boil fast over the fire, so as to reduce it a little then add some browned. Strain the sauce into a small shallow stewpan and put it on one side to get cold. In the meantime cut some meat, and not too small slices from your meat, setting them be all as much as possible of the same size, and remove every particle of skin, fat, gristle or burnt portion, as it is the latter which gives the "warmed-up" taste that is so unpleasant. When the sauce is cold lay in it the pieces of meat, cover up the stewpan and in about an hour's time put it at the corner of the stove, warming by very gradual degrees. If allowed to boil, the meat is sure to be tough. As soon as it is thoroughly hot it is ready to be dished up, with the sauce poured over it, and it should be surrounded with fingers of bread, fried a golden color. The addition of a little finely chopped parsley greatly improves the look of the dish.

A TRAMP'S TESTIMONY.

A tramp asked for a drink in a saloon. The request was granted, and when in the act of drinking the proffered beverage one of the young men present exclaimed:

"Stop! Make us a speech! It is a poor liquor that doesn't loosen a man's tongue."

The tramp swallowed down the drink, and as the liquor coursed thru his blood, he straightened himself and stood before them with a grace and dignity which all rage and dirt could not obscure.

"Gentlemen, he said, 'I look tonight at you and myself, and it seems to me that I look upon the picture of my blighted boyhood. This bloated face was once as handsome as yours; this shambling figure once walked as proudly as yours, for I was a man of the world of man. I, too, once had a home and friends and position. I had a wife as beautiful as an artist's dream, but I dropped the priceless pearl of her honor and respect into a cup of wine, and like Cleopatra, saw it dissolve, then quaffed it down in the brimming draught. I had children as sweet and pure as the flowers of spring, and saw them fade and die under the blighting curse of a drunken father. I had a home where love lit its flame upon the altar and ministered before it, but I put out the flame of love and hatred reigned in its stead. I had aspirations which soared as high as the morning star, but I broke and bruised those beautiful forms and strangled them, that I might hear the cries no more. Today I am a husband without a wife, a father without a child, a tramp without a home, a man in whom every impulse is dead. All have been swallowed up in the maelstrom of drink."

The tramp ceased speaking. The glass fell from his nervous fingers and shattered into thousand fragments on the floor. The door was pushed open and shut again, and when the group looked up the tramp was gone. The above is a true incident. The tramp was once a prominent attorney.

Osborne Holloway, residing at Rives, was in Union City last week and returning home at night undertook to ride a freight car. He jumped on the car near the water tank and had just secured a hold when the water spout caught him and knocked him off and under the side of the car. He struggled to keep out of danger and barely escaped death. His left arm was crushed and the flesh torn from the shoulder down to the elbow. He was picked up and taken to the Nailling Hospital and an operation, amputating his arm, was performed. A railroad ticket is always the cheapest, boys.

Since last week, at which time an advance was announced on Jones' Eatmore Bread, Mr. Jones fortunately secured a special rate on a big purchase of flour that will enable him to continue to sell bread in Hickman at the old prices of 5c and 10c. He contracted for enough flour to supply his bakery until about October 1st. Owing to the increased cost of raw materials, bread almost everywhere is costing more or the size of the loaf reduced. However, the Jones' Bakery is still selling the larger loaves at the old prices. Patronize this home industry and help to keep prices down.

FLAGS ARE SCARCE.

Never in the history of the United States has there been such a demand for flags of our great nation. They are flying to the breezes in every town and city and hamlet in the United States today, and the demand for them has been so great that the factories cannot make them fast enough. With this unprecedented demand they have also increased in price, some of them costing double what they did a year ago, so H. L. Amberg, of the firm of Smith & Amberg, informs us, and are really difficult to buy at any price.

BEGIN SWATTING NOW.

The fly has no equal as a germ "carrier," as many as five hundred million germs have been found in and on the body of a single fly.

It is definitely known that the fly is the "carrier" of the germs of typhoid fever; it is widely believed that it is also the "carrier" of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal and notification that a housekeeper is uncleanly and inefficient.

Do not wait until the insects begin to pester; anticipate the annoyance.

April, May and June are the best months to conduct an anti-fly campaign.

The farming and suburban districts provide an ideal breeding place, and the new born flies do not remain at their birth place but migrate, using railroads and other means of transportation, to towns and cities.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like Dynamite On a Sluggish Liver And You Lose A Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic because it is perfectly harmless.

Calomel is a harmless drug. It is mercury and attacks your bones. Take a dose of nasty calomel and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

The saying that rain on the first day of the month is sure to give rain on fifteen days in the month is not borne out by records kept at this station. During eighteen years, rain has fallen on the first day of the month seventy-three times. Of these, but twelve times has the old saying proved true, while it missed in sixty-one instances. Surely this would be enough to prove the old prophecy a fallacy.

MAY POSTPONE REUNION.

A movement to have the Confederate Veterans' reunion in Washington during June postponed for another year, has started. Col. R. P. Lake, on the general staff of commanding officers, said he did not believe the reunion ought to be held because the railroads are likely to be taxed to carry war supplies, and again because attendance will be small on account of the present war crisis.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Thedford's Black-Draught

Mrs. W. F. Finkle, of Boone, Pa., writes: "We have used Thedford's Black-Draught as a family medicine. My mother-in-law could not take anything but it, and she was so young for her, so she took Thedford's Black-Draught as a small laxative and liver medicine. We are all well and happy. It is the best medicine I have ever used." Try it. It is on the ground—Thedford's. 25c a package.
